

TRAINING

6-Session Counselling - Fitting a quart into a pint pot? *Part 2*

On Saturday 24th November 2007 - 10am to 1pm

Building on the training in July, this session will focus on looking at cases especially cases that seem stuck or too complex to do in 6 sessions.

How we can use transference and counter transference to cut to the heart of issues in order to do more effective and useful therapeutic work while working within the models that we are comfortable and trained in.

**Facilitated by Maryanne Steele
Supervisor, Cross Cultural Counselling**

For those who missed Part 1 of this training, Maryanne is willing to run a 1 hour session at 9am to recap in order to make Part 2 accessible to those who were unable to attend in July. If there is anyone who wishes to attend who missed Part 1, please let Sheridan Edwards know as soon as possible and this can be built into the day.
